

REDDIT

The Reddit is a social news platform that allows users to discuss and vote on content that other users have submitted. To help police the site and prevent spammers from bombarding readers, Reddit came up with “karma” points. Users get karma by their comments and links being up-voted by others in the community.

Android interface

OPERATION NAME	DESCRIPTION
Home Tab	As usual to all we can see every post in home we get popular post also
Browse Tab	Here we get according to our Subscriptions & Custom Feeds and also we can see communities.
Post Icon	Here we can able to post Link, Image, Video, Text & Poll.
Chat	It's a chat directory & we can start a new chat.
Inbox	We get the messages & Notifications here.
Profile	We can get a separate tab we can able to see karma points & Reddit age.
Settings	It's a face for changing settings like; General, View option, Dark mode, Advanced, About, Support & build information.
Reddit Coins	We can able to purchase reddit coins so many packages are available here.

Conclusion:

As part of following community guideline Reddit is very good to provide better user interface & and good experience.
