# TWITTER

Twitter is a platform where one can share his/her opinions about what's happening in the world. To get the latest updates on Music, News, Sports, Celebrities, Politics, and everyday moments twitter is one of the most favored platforms among users all over the world. Like many other Social Media Platforms, twitter also, has a web interface and a mobile interface. The operations a user can perform on twitter are listed below.

Website Interface

Mobile Interface

OPERATION NAME	DESCRIPTION	Website	Mobile
Home Tab	All the latest updates on various topics and followed accounts is available here.	✓	✓
Explore Tab	Search for specific or trending hashtags and accounts. Contains sub-categories like News, Fun, Entertainment, etc.	✓	✓
Notifications Tab	This is where a user can see notifications and mentions specific to their account.	✓	✓
Messages Tab	Here a user can read personal messages received or sent to and from the respective twitter account.	✓	✓
Bookmarks Tab	Here the user can access all the bookmarked tweets, similar to saved messages or important posts for future reference.	✓	✓
Lists Tab	The list is a set of events or posts that a twitter user can save or refer to.	✓	✓
Profile Tab	Page where user can edit personal information, see his liked posts, shared media and other personal stuff.	✓	✓
More Options Tab	In this tab, the user can check twitter analytics, moments, Ads, and access the platform settings.	✓	✗
Settings & Privacy Tab	The user can have access to account as well as general settings in this tab.	✗	✓
Tweet Box	Here the user can post a tweet, containing any form of media or just plain text. It is usually present in the Home Tab on webpage and a separate tab on mobile.	✓	✓

Conclusion: These are all the operations that a user can perform on his/her twitter handle on two different devices.
